Tim Prawdzik

The GivingGolfer is an online player registration and management system for golf Fundraisers, Golf Scrambles and Outings.

It allows your event to quickly and easily provide an online information hub for sponsors, donations and player registration.

As the event leader, you can assign starting holes by team. Then the system will generate a spreadsheet for the course to use to setup the carts.

Also the event leader can generate a spreadsheet to use as a player check-in list. Players are listed in last name sequence for rapid check-in on the day of the tournament.

Not only is the system free to use, it comes with free technical support!

Ask about our "[Cigar Basket Donation](#)" for your Fundraising Auctions! - **FREE** for using GivingGolfer.com Management Site!
(While supplies last!)

Frequently Asked Questions

- ◆ **What is the cost to use the GivingGolfer System?**

Free! Just contact us with your site setup Information and get your System Login.
- ◆ **What happens if players show up the day of the event without registration?**

You would write their information down at the end of the players list and beg the course for another cart! The GivingGolfer system is for management help—it is not an accounting system.
- ◆ **Can dinner guests be added without adding a player?**

Yes! There is a button at the bottom of the Guest List screen to allow you to add a Meal Guest without adding a player.
- ◆ **Who do we contact if we need help with the GivingGolfer System?**

You can call or text Tim Prawdzik at (614) 206-5524 or you can email directly to Tim@TechnoBiz.net
